

CTF Methodology Guide

Hacking-zone community — Creator: Pirmaxmatov Og'abek

Attention: ONLY ACADEMIC PURPOSES. Use materials in authorized CTF/lab environments.

Overview

Structured approach to solving CTFs: reconnaissance, vulnerability identification, exploit development, and reporting solutions.

Workflow

- Recon: gather targets and endpoints.
- Analyze: understand challenge constraints.
- Exploit/solve: develop PoC and validate.
- Document: write concise walkthrough with commands and rationale.

Best Practices

Keep a toolkit, use version control for scripts, and practice time management during competitions.
