

Network Forensics Handbook

Hacking-zone community — Creator: Pirmaxmatov Og'abek

Attention: ONLY ACADEMIC PURPOSES. Use these materials in authorized lab environments.

Network Evidence

Network forensics analyzes packet captures, logs, and flow data to reconstruct events.

Capture Best Practices

- Capture at strategic points (edge, internal choke points).
- Use metadata (NetFlow) and full packet capture where feasible.

Analysis Tools

Wireshark for packet analysis, Zeek for network telemetry, and Elasticsearch for log correlation.
