

Malware Analysis Guide (Defensive)

Hacking-zone community — Creator: Pirmaxmatov Og'abek

Attention: ONLY ACADEMIC PURPOSES. Use these materials in authorized lab and exercise environments.

Safe Handling

Always analyze malware in isolated VMs with no network access or controlled virtual networks. Capture artifacts and snapshots.

Static & Dynamic Analysis

- Static: strings, imports, PE headers
- Dynamic: sandbox execution with monitoring, API tracing, and network capture (use controlled sinks)

Reporting

Document indicators, behavior, and remediation steps. Share signatures with detection teams using secure channels.
