

Metasploit Framework Guide (Educational)

Hacking-zone community — Creator: Pirmaxmatov Og'abek

Attention: ONLY ACADEMIC PURPOSES. Use materials in isolated lab environments with permission.

Overview

Metasploit is a framework for developing and testing exploit code and payloads. Use it only in controlled labs and for defensive testing.

Common Modules

- Auxiliary scanners for discovery.
- Exploits (use only in lab).
- Post modules for cleanup and evidence collection.

Ethical Use

Do not use Metasploit against systems without explicit authorization. Focus on learning defensive countermeasures.
