

Security Code Review Checklist

Hacking-zone community — Creator: Pirmaxmatov Og'abek

Attention: ONLY ACADEMIC PURPOSES. For educational and authorized use only.

Checklist Overview

A practical checklist for code reviewers covering common security issues and verification steps.

Checklist Items

- Authentication & session management
- Input validation and output encoding
- Proper error handling and logging (avoid leaking secrets)
- Dependency and supply-chain checks

Process

Incorporate security review into PRs, require approvals, and use automated checks to surface issues early.
